Github: github.com/MarcoCAVS18

Frontend developer with a strong background in graphic design and customer-facing roles. Experienced in building real-world web applications using modern technologies such as React and Firebase.

Combines technical skills with a deep understanding of user experience, visual design and product thinking. Currently developing and shipping personal projects while working internationally.

EXPERIENCE

Independent Developer

Remote · 2023 – Present

Designing, developing and deploying production-ready web applications using React, Firebase and Tailwind CSS. Focused on performance, responsive design and real-world usability.

- Built a full-stack contact system using Firebase (Firestore + security rules)
- Developed a portfolio with animated UI using Framer Motion
- Designed and implemented a private admin dashboard using FastAPI and Firebase Admin SDK
- Structured scalable frontend components and reusable UI systems

Customer Service Representative

Cooltra - Barcelona, Spain · 2021 – 2023

Worked with enterprise tools such as Zendesk and Salesforce managing customer interactions and internal processes.

- Managed high-volume support tickets and client communication
- Handled onboarding processes and KYC compliance
- Improved internal workflows and documentation
- Contributed to better user experience through direct customer feedback

Graphic Designer

Imprenta Gonzalez - Rosario, Argentina · 2014 – 2020

Created visual identities and digital assets for multiple clients across different industries.

- Designed brand identities, marketing materials and digital content
- Worked with Adobe Creative Suite (Illustrator, Photoshop, CorelDraw)
- Developed strong foundations in layout, composition and visual hierarchy
- Delivered client-focused design solutions for print and digital media
